PROFESSIONAL SUMMARY

B.E. Computer Science student (2024–2028) with hands-on experience in full-stack development using React.js, Express, and MySQL. Built scalable web applications and implemented REST APIs, authentication, and optimized database systems.

EDUCATION

B.E. – Computer Science Engineering	2024 – 2028
Bannari Amman Institute of Technology, Erode	CGPA: 8.01

EXPERIENCE

Peer Technical Trainer	Academic Role
------------------------	---------------

- Taught React.js fundamentals, GitHub workflows, and HTML/CSS to first-year students while in the second year.
- Guided juniors in building basic front-end projects and understanding version control practices.
- Assisted students in collaborative coding and project-based learning.

PROJECTS

Contact Management System — React.js, Express.js, PostgreSQL, AI ,Supabase[[GitHub](#)]

- Developed a comprehensive contact management and business-network visualization platform.
- Enabled organizations to track relationships, analyze connections, and manage tasks and events.
- Integrated AI-driven features to enhance relationship insights and automation.

Curriculum Management System — React.js, Golang , MySQL [[GitHub](#)]

- Developed a web-based academic management platform for course allocation, elective management, and mark entry
- Implemented student–teacher mapping to streamline communication and tracking
- Designed and maintained a relational database with 100+ tables for scalable data handling
- Improved efficiency by reducing manual administrative tasks

TECHNICAL SKILLS

Programming Languages: Java, Python
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Express.js, REST APIs
Databases: MySQL, postgresql, Supabase
Tools & Platforms: Git, GitHub, Postman, Render, Vercel
Practices: Scrum Meets, Team Collaboration
